

Characteristic of projects and activities:

This is a CSR support to schoolchildren who would like to attend the natural classroom not only at the nature education centre under the “FEED” but also at any natural areas countrywide. It can be set up as a “FUND” and have a plan to organize green activities for youth only during the year.

The FUND will be distributed to support nature education activities and environmental youth camp and FEED’s nature curriculum .

Project’s areas:

- Bangpu Nature Education Centre (BNEC)
- Nature & Agriculture Education Centre (NAEC)
- Other organized areas, countrywide

Duration: Total of schoolchildren is subjected to the budget support or Fund available of the year.

Budget (Baht): 300-500 Baht/head, 50 -100 head/event

Note for Supporters and partners:

Internal event: 50-80 children plus up to 20 company’s management and staff for each program.

External event: Subjected to the budget available and the condition of place and other price.

To support this project is not only support nature conservation and youth education , but also good practice in Buddhism.
